Genstone Companies Named to Inc. 5000 List of Fastest-Growing Companies in America for Second Consecutive Year

Tampa, FL – Genstone Companies today announced that it has been named to the Inc. 5000 list of the Fastest-Growing Private Companies in America, marking its second consecutive year earning a place on one of the nation's most prestigious rankings of entrepreneurial success and business growth.

Genstone's Inc. 5000 rankings put the company among the Top 100 fastest-growing private companies in the Tampa–St. Petersburg–Clearwater metropolitan area, the Top 400 in the Financial Services category, and the Top 500 in Florida. The recognition reflects the continued momentum of Genstone's diversified real estate and financial services businesses and the progress it has made in broadening its market presence and client reach.

"Making the Inc. 5000 list two years running reflects the strides we are making across Genstone," said Glenn Brooks, President of Genstone Realty and Genstone Asset Disposition. "We have built a broad range of complementary offerings that allow us to address client needs across the full real estate lifecycle. Bringing that expertise together is central to how we create value for our clients."

Over the past year, Genstone has continued to advance its financial services and property services capabilities through strategic partnerships, expanded insurance offerings, new institutional and single-family rental relationships, and investments in people, technology, and infrastructure.

"This accomplishment belongs to the people across Genstone who bring their expertise and commitment to our clients every day," said Andy Laing, President of Genstone Companies. "Being named to the Inc. 5000 list two years in a row demonstrates what our teams have accomplished together. We have built an organization with a broad set of services and deep industry expertise, and we see significant opportunity ahead to deliver even greater value to the clients and partners we serve."

The Inc. 5000, published annually since 1982, recognizes America's fastest-growing private companies based on revenue growth over a three-year period. The list has become a hallmark of entrepreneurial achievement, celebrating organizations that drive innovation, create jobs, and contribute to economic activity across the United States.
